Art Unit: 1644

1. Claims 1-3, 5-11 and 14 are pending.
2. Applicant is required to insert all 35 USC 120 and 119(e) data on the first page of the specification. Applicant has not updated the status of US application 09/166,298.
3. Claims 1-3, 5-11 and 14 stand provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-5, 13-15 and 20-22 of copending Application No. 08/943,771. Although the conflicting claims are not identical, they are not patentably distinct from each other because the '771 pending claims are species claims to the instantly pending claims in the current application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Applicant has stated a terminal disclaimer will be filed when there is an indication of allowable subject matter.

The rejection is maintained.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
